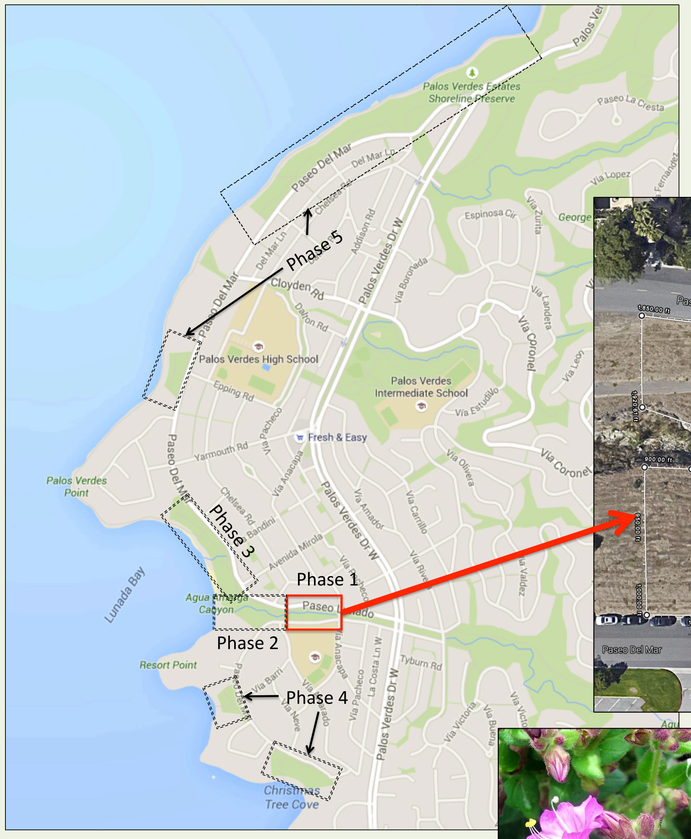
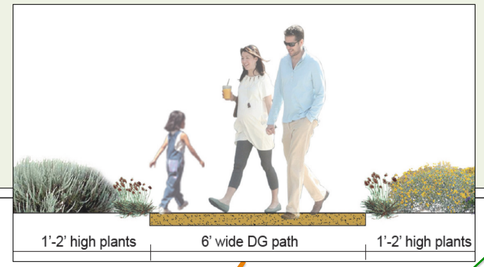
A Resident-Led Project to <u>Beautify Lunada Bay</u>

Final Design: Phase 1 Pilot

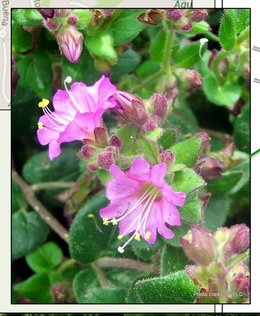


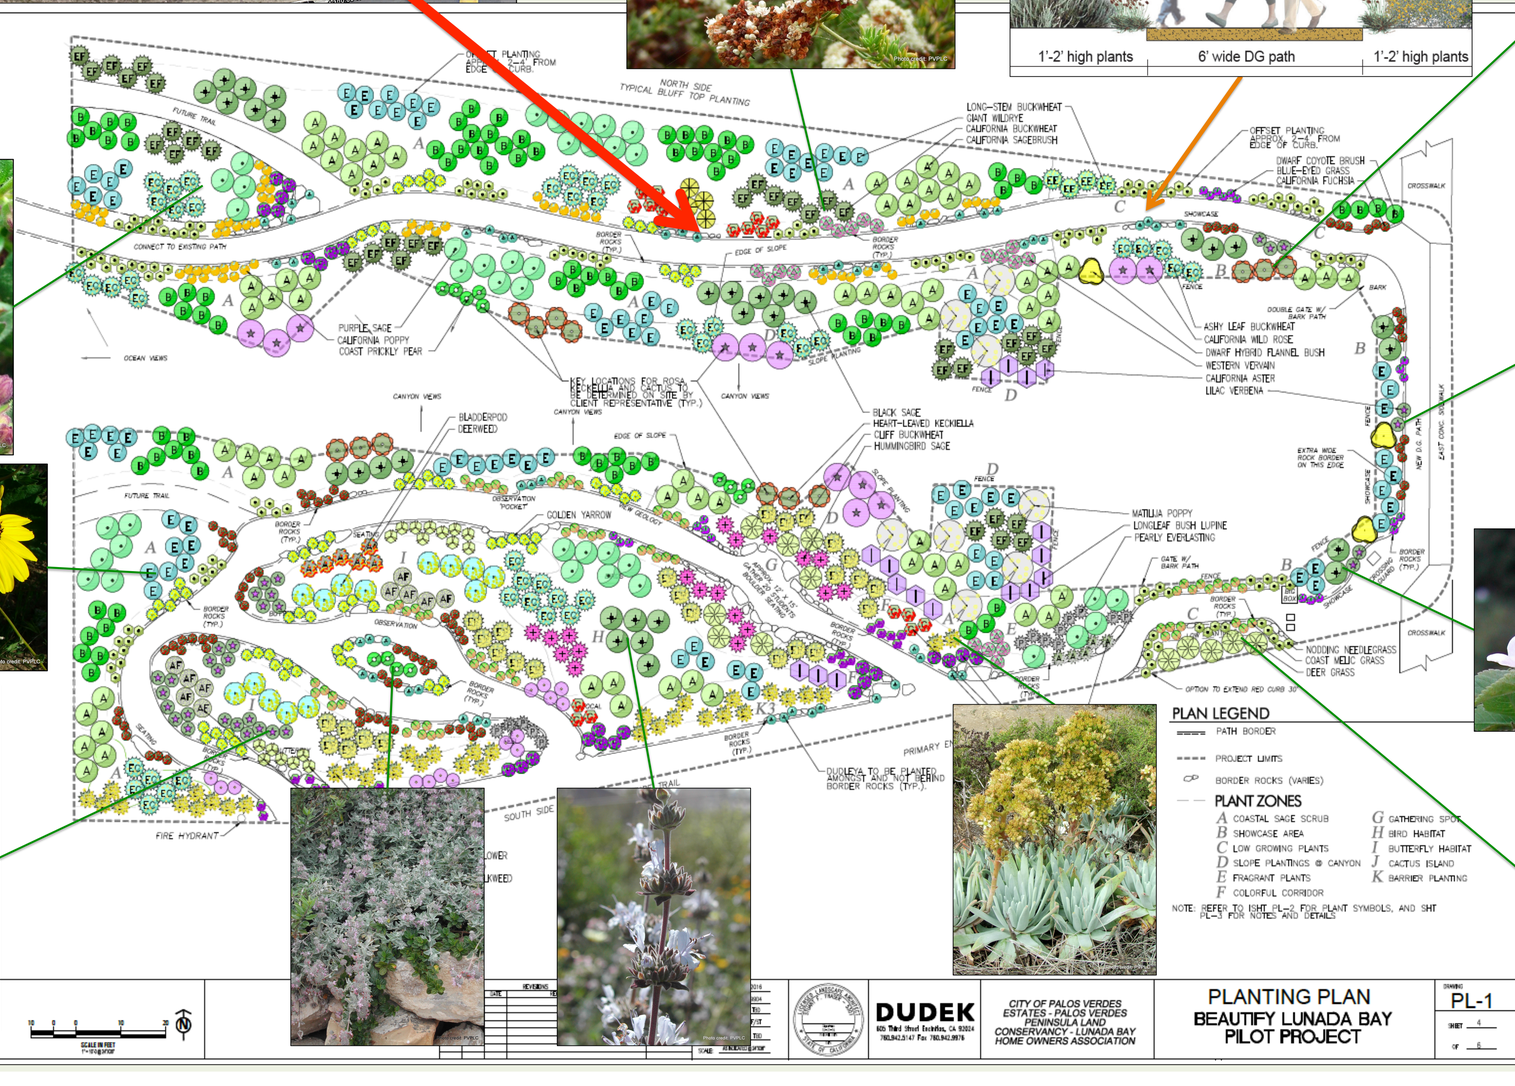
Objectives:

- **Install low-growing, drought tolerant native plants that are attractive year-round**
- **Install stone-lined, decomposed granite walking trails with occasional stones for seating**
- **Provide educational and volunteer opportunities for students and community members**



Plant locations representative only; Over 35 different plants in project palette





- Native plants and planting expertise provided by Palos Verdes Peninsula Land Conservancy
- Volunteers needed to help plant plants, etc.
- Project funded by donations from the community
- Donations tax-deductible
